DETAILED ACTION

Drawings

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-4, 7, 10, 11, and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Takano (US 2003/0123529).

Regarding claims 1-4, 10, 11, and 14, Takano, as shown in figures 3 and 4, teaches a method and apparatus for de-channelizing data in a W-CDMA

system comprising the steps of detecting an OVSF code (313), demodulating data multiplexed in the OVSF code using FHT (322), and mapping the demodulated data using the channelization code (318 – 320). See also paragraphs [0004, [0052], and [0058] – [0064].

Allowable Subject Matter

4. Claims 12 and 13 are allowed.
5. Claims 5, 6, 8, 9, 15 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References Hwang et al (US 2002/0077141), Wang et al (US 6,501,788) and Subramanian et al (US 2006/0003757) are cited because they are pertinent to the method of de-channelizing data in W-CDMA system.
